Offered services

Web design and development have been my bread and butter for more than 5 years. During that time I've discovered that I can help startups and companies with the following services

DESIGN

Successful online projects start with good design. It establishes a solid foundation for future development and allows for long term growth

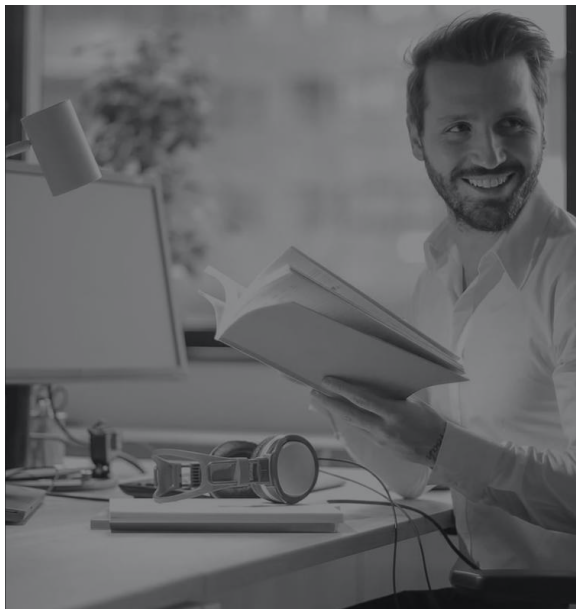

DEVELOPMENT

I can code my own designs or even use the customer's design as base. My focus is to generate clean code that's well structured for reliability

BASIC SEO

i can setup your project to use basic SEO principles which will push your project to the first page on search engines and save you ads money

Why Work With Me

I am a great communicator and love to invest the necessary time to understand the customer's problem very well

DESIGN TOOLS

My favorite design tools are Photoshop and Illustrator but I can create designs in Figma, Sketch and Adobe XD too

DEVELOPMENT SKILLS

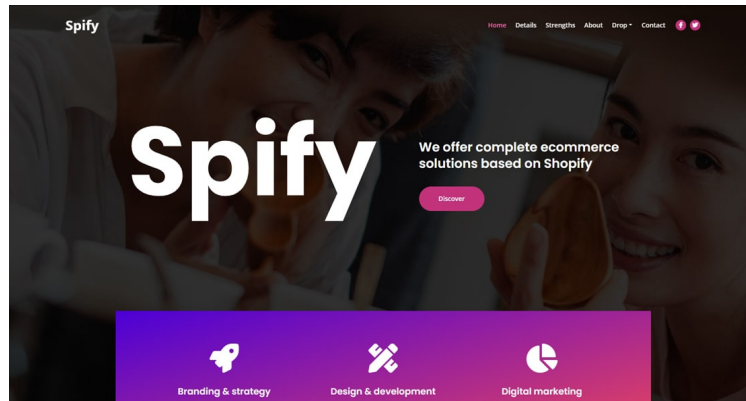

I am familiar and work on a daily basis with HTML, CSS, JavaScript, Bootstrap and other modern frameworks
